The New Pro-

Introducing the GP4000 SERIES

Easy to Identify, Easy to Use

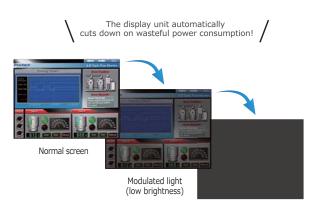

Operators can easily monitor machine conditions and the plant floor situation in real time using realistic 3D buttons, lamps, and gauges.

Features 65,536-color TFT standard

Energy Saving

The GP4000 Series contributes to reducing on-site power consumption in a variety of ways including an on-board LED backlight in all models, and an optional dimmer setting used to decrease and eventually stand-by the display after being idle for a set period of time.

Standby (screen turned off)

Standard equipped with LED backlight LCD + optional Dimmer setting

face Standard

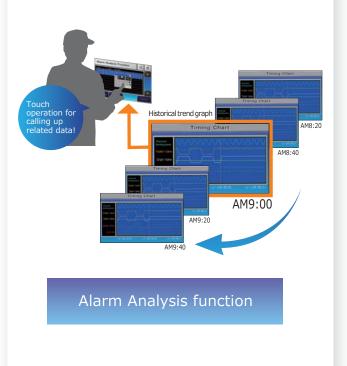

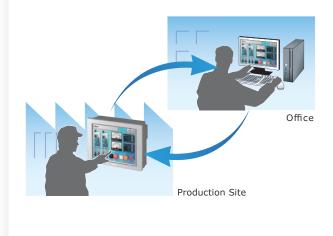

Quick On-site Recovery

Simply touch the alarm message to check the relevant data in chronological sequence.

Remote Monitoring

The GP-Viewer EX software provides various remote monitoring functions, such as checking the screen of the GP located on a production site from a remote office.

Ethernet I/P featured as standard

Lineup

Standard Model	Standard Model	24V	10.4-inch AC 100-240V Standard Model			
	GP-4601T /	GP-4603T (Isolated MPI Communication Port)	GP-4501T / GP-4503T (Isolated MPI Communication Port)			
	resoluted with Communication Porce					
Display (Resolution)	65,536-color TFT (640 x 480 pixels)		65,536-color TFT (640 x 480 pixels)			
Brightness Control	Brightness Control 16-level Brightness					
Touch Panel Type	Analog or Matrix (Supports 2 point touch)					
Memory	FEPROM 32MB (Application Memory), 320KB (Backup for HMI), 64KB (Backup for Control)					
Ethernet	x1 (IEEE802.3i / IEEE802.3u,10BASE-T/100BASE-TX)					
SIO	COM x 2					
SD Card Slot	x 1					
USB	USB Type-A (2.0) x 1, USB mini-B (2.0) x 1					
Replaceable Battery		Yes				
GP-ProDUC HMI Screen Editor & Logic Programming Software Use with the entire Pro-Face line-up through optimized drag and drop operation, and a abundant variety of program-free connection methods to a wide range of devices. Compact display for various applications

Ethernet Multi-Link function

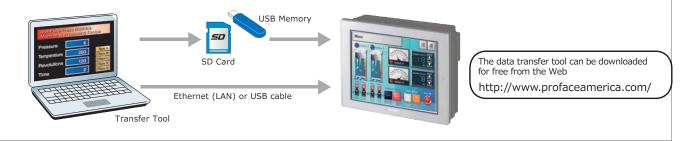

The Ethernet Multi-Link function allows you to easily add a GP as a sub-display to the facility without changing any settings of the control device.

More functions for more applications

Screen data can be updated by using the data transfer tool, even without a software license.

Conforms to overseas standards for hassle-free export and use with overseas equipment

IP65f Front Enclosure NEMA#250 TYPE 4X/13*

*Planned to acquire UL/cUL Hazardous Locations and ATEX by 2012

The GP4000 series comes equipped with a replaceable primary battery, which helps the HMI maintain an ambient operating temperature of 0 to 55°C [32 to 131F°] even in adverse environments.

•GP-4601T、GP-4603T •GP-4501T、GP-4503T •GP-4401T、GP-4301T •GP-4303T

One development software for both dedicated and open windows-based operator interfaces.

Creating great HMI applications doesn't have to be hard. Intuitive Self-Guiding HMI Software

Four Easy Steps

- **1.** Set up communications
 - Choose and set up PLC and third-party devices effortlessly
 - System settings are logically arranged and easy to find

2. Design application/screens

- Drag-and-drop addressing, parts and colors
- Efficient features to reduce development time
- Create consistent look and feel using the user-defined templates

- **3.** Simulate and test
 - Verify before you travel
 - Debug your application without hardware
 - Test without downloading

4. Download/transfer

• Tamper -proof HMI application – password-protected project source

Support

Outstanding Support

No Phone Bouncing No Contracts No Hassles

Outstanding Technical Services

Pro-face is committed to delivering excellent technical support whether you are local or abroad. We have trained specialists both in-house and in the field.

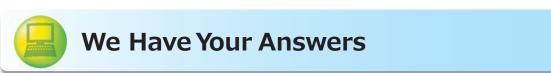

Better than Basic Support Services:

- Product level Technical Support
- Component Selection recommendations
- Compatibility testing to customer hardware
- Product Migration Compatibility Assistance
- Pros and Cons of IPC vs Dedicated HMI

Proof-of-Concept Assistance:

- Perform project setup and debug
- HMI Application Project Analysis
- Application Conversion assistance for smooth transition to Pro-face

Speak with a live Support Engineer who will solve your problem within 24 hours 95% of the time, or for those challenging issues in 72 hours 99% of the time without an expensive service contract.

Free Our Technical Support web site contains a vast resource of product and application knowledge.

Everything you expect plus:

- Sample HMI applications and more graphics
- Frequently asked questions and application notes
- Product certifications and migration guides
- New and enhanced communication drivers

Training

Training That Makes A Difference

Superb Training

HMI is not just about buttons and lamps. Save hours of struggling trying to learn how to take advantage of advanced features like recipes, trending and video playback/recording.

Let Our Experts Help You:

- Our staff includes highly trained and field experienced solution engineers
 - We use working hardware and software
 - We use full agenda courses for maximum benefit
 - We teach from beginner to advanced levels
 - We help as you progress creating your HMI solution
 - We show you how to network your factory floor information with your Enterprise business system

Flexible Training Options*:

- $\sqrt{}$ Regional hands-on training
- \checkmark On-site classroom training
- $\checkmark\,$ Pro-face sponsored webinars
- $\sqrt{}$ Remote access one-on-one training
- \sqrt{Free} self-paced online training
- * Some training provided at a modest price.

Pro-face training options and tools not only save time, but also shows you how to achieve maximum operator interface performance.

We're Here When You Need Us

Pro-face Free Learning Center is available 24/7. If you are a beginner developing HMI applications you will find this resource invaluable. Advanced users can take advantage of our HMI time saving tips and tricks.

- 🧷 Topic based quick start guides
- 🔏 Self-study textbook tutorials
- 💋 Video and podcast-based training modules
- Advanced tips/tricks techniques collection

We are always striving to connect customers to their clients, processes,

and people through high quality products, and service and support from

around the world.

We provide our best possible support for each and every individual customer.

Our Environmental Policy and Compliance with the RoHS Directive

Pro-face has taken significant steps to meet increasingly stringent requirements for environmental preservation and has sought to comply with the RoHS Directive by adopting measures to eliminate specified harmful substances from existing products and products to be manufactured and sold beginning in 2006. For details, please refer to our web site or contact our sales office in your country.
